A probiotic of choice during antibiotic therapy

Description

BOULARDII-VET® is a dietary supplement based on *Saccharomyces boulardii* ultra-yeast (CNCM I-745). Each capsule contains 2.7×10^9 CFU/g.

Mode of action

Saccharomyces Boulardii has the property to grow and reach high concentrations in the gastrointestinal tract rapidly and to remain there for several days. It survives perfectly the acidity of the stomach as well as proteolysis thanks to its optimal pH between 4,5 and 6,5). Its optimal temperature of 37° C allows it to survive in the body unlike its variant "*Saccharomyces cerevisiae*". By its fungal nature, it is resistant to antibiotics, which makes it a complement of choice during antibiotic therapy.

Indications

Support for the symptomatic treatment of the following pathologies:

- Diarrhea associated with antibiotic therapy
- Treatment of acute diarrhea
- Prevention of diarrhea associated with *Clostridium difficile* (or prevention of recurrence)
- *Helicobacter pylori* (HP)
- Irritable bowel syndrome
- Necrotizing enterocolitis (prevention) in neonatology.

Dosage

Cat: 2 capsules per day for the first 5 days, then one capsule per day for 10 days.

Dog: 4 capsules per day for the first 5 days, then one capsule per day for 10 days.

This food supplement does not replace a proper diet and hydration.

Do not exceed the recommended daily dose.

Contraindications

Saccharomyces Boulardii is not recommended for immunodeficient or seriously ill subjects, subjects with central venous catheter (low risk of fungemia) and to subjects allergic to the active substance or to one of the other components contained in this food supplement.

Side effects

Like all supplements, Boulardii can cause undesirable effects, but these do not occur systematically in all patients. These effects can be an allergic reaction, hives, fungemia or simply constipation.

Precautions

As with any dietary supplement, consult your veterinarian before using BOULARDII VET®. Please keep this product out of reach of children.

Storage

Store at a temperature not exceeding 25°C, protected from humidity.
